What do paper, yarn, felt, ribbon, old T-shirts, and reeds all have in common? How would you answer that question?

They can be used to create "fabric" by weaving different things together.

Weaving is an artistic and practical skill that is a lot of fun. You can take a hula hoop and old T-shirts cut into strips and turn them into a rug for your bedroom. You can take strips of paper and interlace them and turn them into a placemat, or a mobile made of exotic fish. You can take two squares of felt and a pair of scissors and turn the felt into a basket. Or, you can take stiff cardboard, a large eyed needle, a plastic fork, and yarn and turn them into a bookmark.

To make this magic happen come and weave with 4-H on Wednesdays, March 7, 14, 21, 28, 2018. We will meet from 4 to 5:30 p.m. at the USU Extension office in Brigham City and weave a project.
